Aquarius, January 21 - February 19: Aquarius is the water carrier. Where there is water, there is life; you have a lively personality that draws others to you. Have fun when you can, and focus on the skills you need to acquire to make a positive mark on this life. Be aware that you can learn more from mistakes than you can from success. Perfect Match: Virgo

Pisces, February 20 - March 20: As a Pisces you are a fish; you go through life with ease. You are selfless and can share the innermost depths of you soul with those who you consider friends. However sometimes you may be too open. Kindness can sometimes go too far. You need some time just to chill and find what you want and who you want to be. Perfect Match: Capricorn

Aries, March 21 - April 20: You’ve had a tough year and not everything has gone according to plan. You may have gotten a D- on a paper or failed a midyear but you have a happy summer to look forward to. Don’t lose sight of the year passed as you move on to the next grade. You have learned lessons that will help you greatly in the coming year. Perfect Match: Cancer

Taurus, April 21 - May 21: Your astrological animal is a bull, but don’t be a bully! Over the summer you will be asked to do things you would rather not but do these things with an open heart and you will be rewarded. Look for beauty and reason and you will find it, no matter what the situation. Perfect Match: Gemini

Gemini, May 22 - June 21: Summer is finally here! Hang with your friends and spend some time with your family too. Explore the world through books and you will never be lonely. If you can, start a summer reading circle. Get together a few close friends or some people you want to be friends with and spend some time reading books and laughing about life. Perfect Match: Taurus

Cancer, June 22 - July 22: Summer is here and it is going to be great! No matter what happens you will find some way to have fun. Cancers are very innovative and always think of great ideas. Whether it is pouring cats and dogs outside or as dry as a desert you can always be counted on to find some way to have fun. Perfect Match: Aries

Leo, July 23 - August 21: This summer is going to be one to remember. Do something unexpected this year; Leos have a forgiving spirit, maybe this year you could request donations to your favorite charity instead of a new computer. Use your creative brain to think of some new ideas to have fun in this exciting summer. Perfect Match: Libra

Virgo, August 22 - September 23: Virgo is the only female astrological sign but that doesn’t mean it's only for girls. Virgo boys and girls have been known to be very productive and have a mind for critical thinking. As school starts up next year focus on what you have to accomplish. Take things slow and don’t give up if you don’t understand something. Perfect Match: Aquarius

Libra, September 24 - October 23: Libra is the Scales, a symbol of justice and fairness. Gambling (the perfect opposite of fairness) is in your nature; you may be tempted this summer to risk more than you are willing to give up. You will want to branch out and that is good, just make sure you don’t stray too far from who you really are. People like you for you, not who you pretend to be. Perfect Match: Leo

Scorpio, October 24 - November 22: Scorpions, desert dwellers with attitude. Try to use you attitude to help others, not just to help yourself; you will do great things, greater than those expected of you. Procrastination is one of the only destructive qualities of your nature; do things today, they can’t often wait for tomorrow. Perfect Match: Libra

Sagittarius, November 23 - December 22: You are the gifted and highly optimistic centaur. You are wise and will gain knowledge as you look to forces outside yourself. You are of the night sky, so look to the stars for answers. Power is in you mind, learn to access it. Try to stay grounded in your ambitions. Perfect Match: Scorpio

Capricorn, December 23 - January 20: Capricorn, the Sea Goat, loves to be the one giving help and not the one in need of it. Realize that sometime or another you will need help and can’t do everything yourself. This summer is a beginning, not an end; focus on the positive influences you have in your life and not the negative. Perfect Match: Pisces
